Krabi City municipality

On behalf of:

of the Federal Republic of Germany

## Challenges and next steps

On behalf of:

Federal Ministry  
for the Environment, Nature Conservation,  
Building and Nuclear Safety

of the Federal Republic of Germany

# Challenges

- **Multistakeholders**
- **Quality and Quantity**
- **Long term training (2 years)**
- **New approach for development planning process**

## Next steps

- **Follow up with 17 provinces – 32 municipalities**
- **Develop mechanism to support the implementation of subnational climate change action plan**
- **Continue working with another 60 provinces – mainly focus on capacity building (provide training)**

**THANK YOU VERY MUCH**

On behalf of:

Federal Ministry  
for the Environment, Nature Conservation,  
Building and Nuclear Safety

# Programme

- **Welcome and Moderation:** Ms. Vaishali Nandan, Senior Advisor and Joint Speaker of TUrbOcliC
- **Vertical integration of National Climate Change Policy, experiences from Thailand** – Ms. Chutima Jongpakdee, Project Manager, Support to the Development and Implementation of the Thai Climate Change Policy Project
- **Integration of the national plan and the local development plan with focus on climate change: Experiences and Lesson learnt from Bangladesh** – Mr. Mohammad Ishtiuq Hossain Senior Advisor, Adaptation to Climate change into the national and local development planning (ACCNLDP) Project and Mr. Chowdhuy Hamidul Islam, Team Leader, Resilience and Inclusive Urban Development Project
- **Interactive discussion with audience**

# Integration of the National plan and the Local Development Plan with Focus on Climate Change: Experiences and Lesson Learnt from Bangladesh

**Hamidul Islam Chowdhury**  
Team Leader, RIUD Project

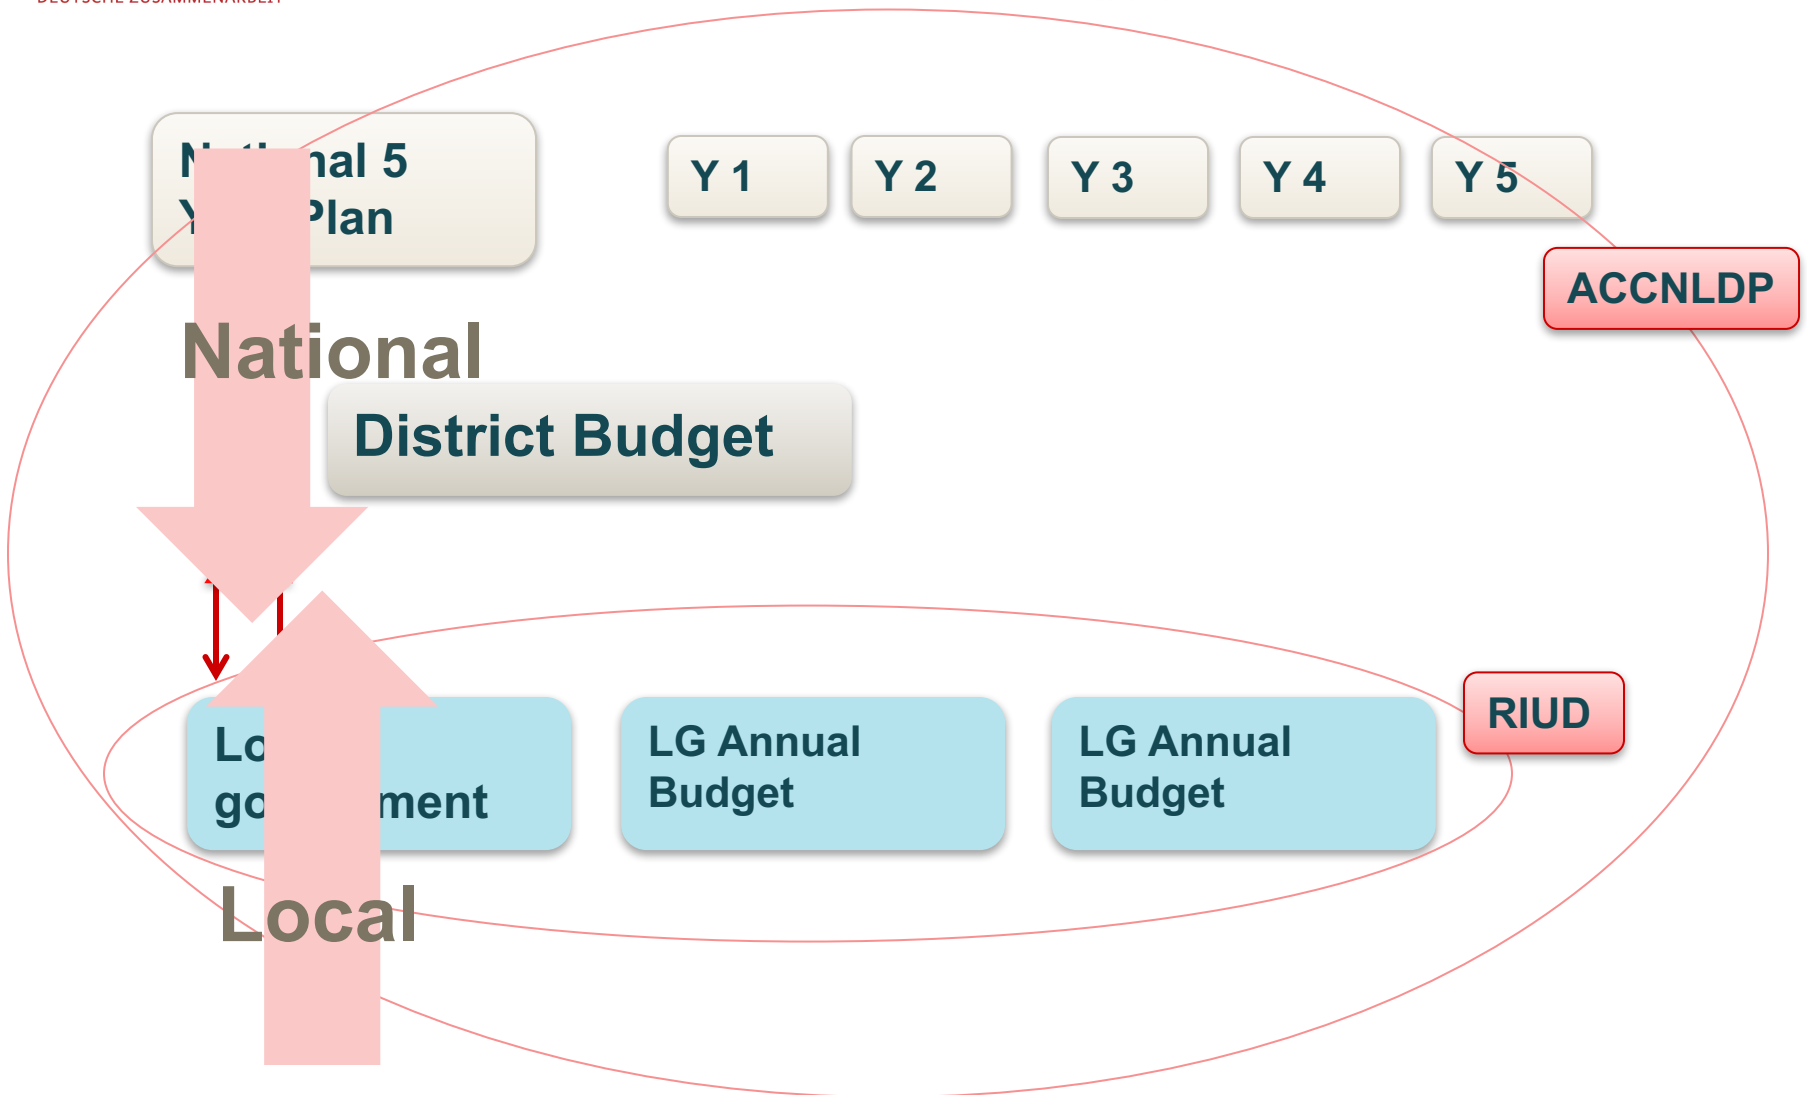

**Mohammad Ishtiuq Hossain**  
Senior Advisor, ACCNLDP Project

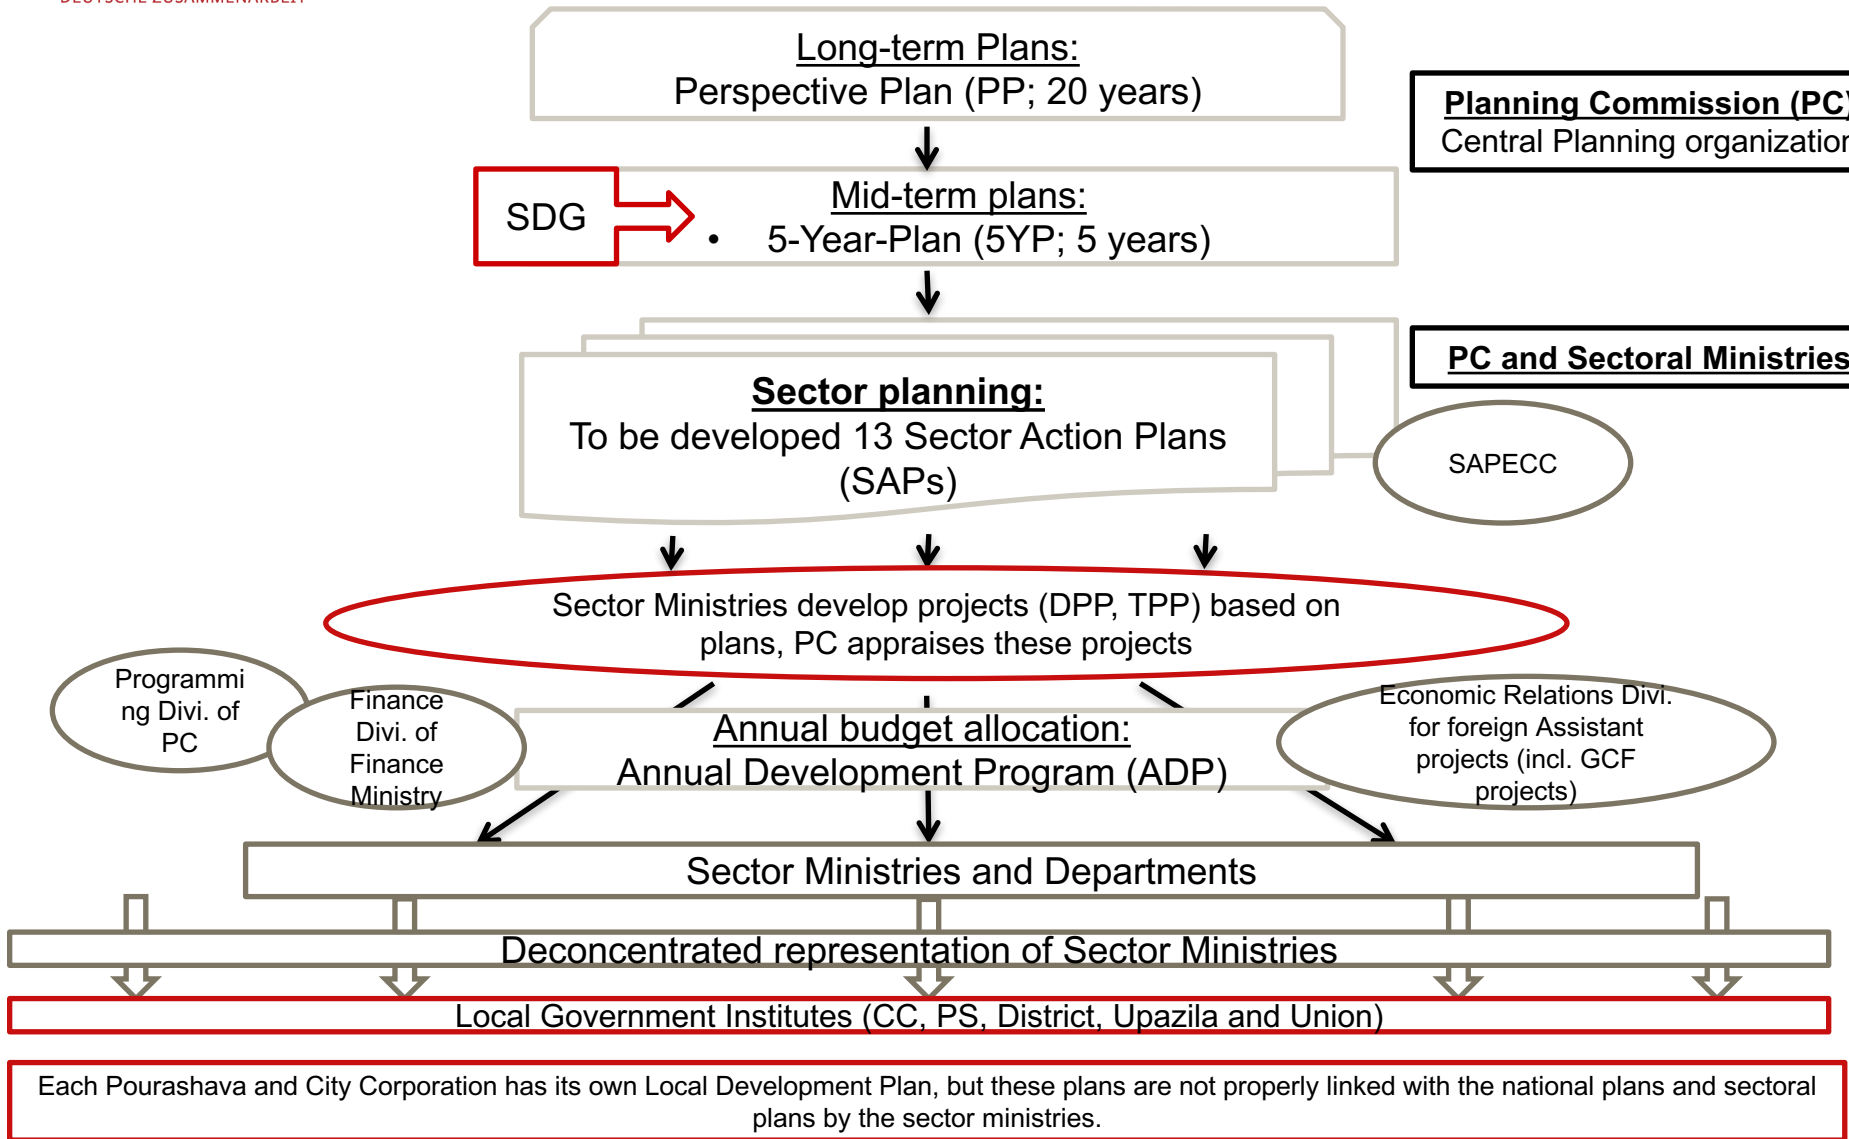

**Date: 30 January 2018**

## Structure of the Presentation

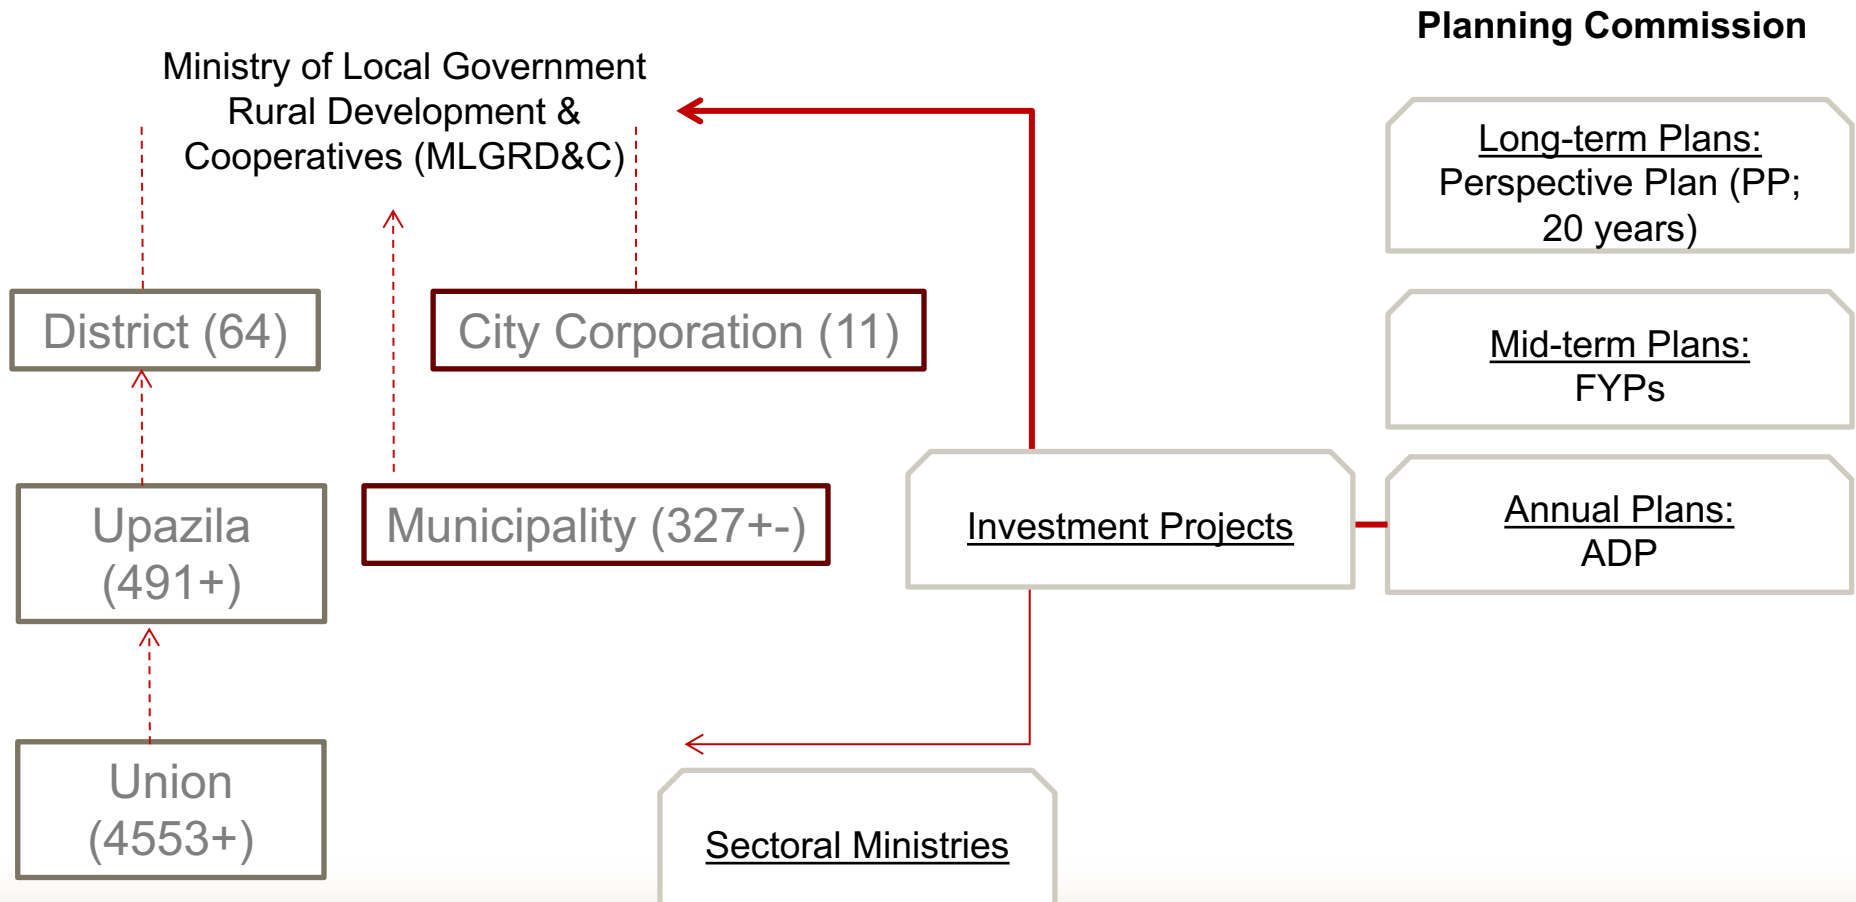

- **Conceptual Framework of National and Local Planning**
- **Planning System at National Level in Bangladesh**
- **Linkage with the National and the Local Plans**
- **Local government structure of Bangladesh**
- **Development Planning and Mainstreaming CC issues**
- **Is Bangladesh Ready for Integration?**
- **Recommendations/ Proposals**

## Linkage with the National and Local Plans

## Local government structure of Bangladesh

District (64)

Upazila  
(491+)

Union  
(4553+)

“Upazilla Parishad Act (amended) 2011, A committee for budget, finance, planning and local resource mobilization.

A financial estimate for the implementation of those local plan has to be prepared (with proposal of needed resource mobilization)

“Union Parishad (Dev. Planning) Rues 2013”

UP will formulate and implement 5yr and annual plan wherein which goals and objectives of national plans are to be reflected;

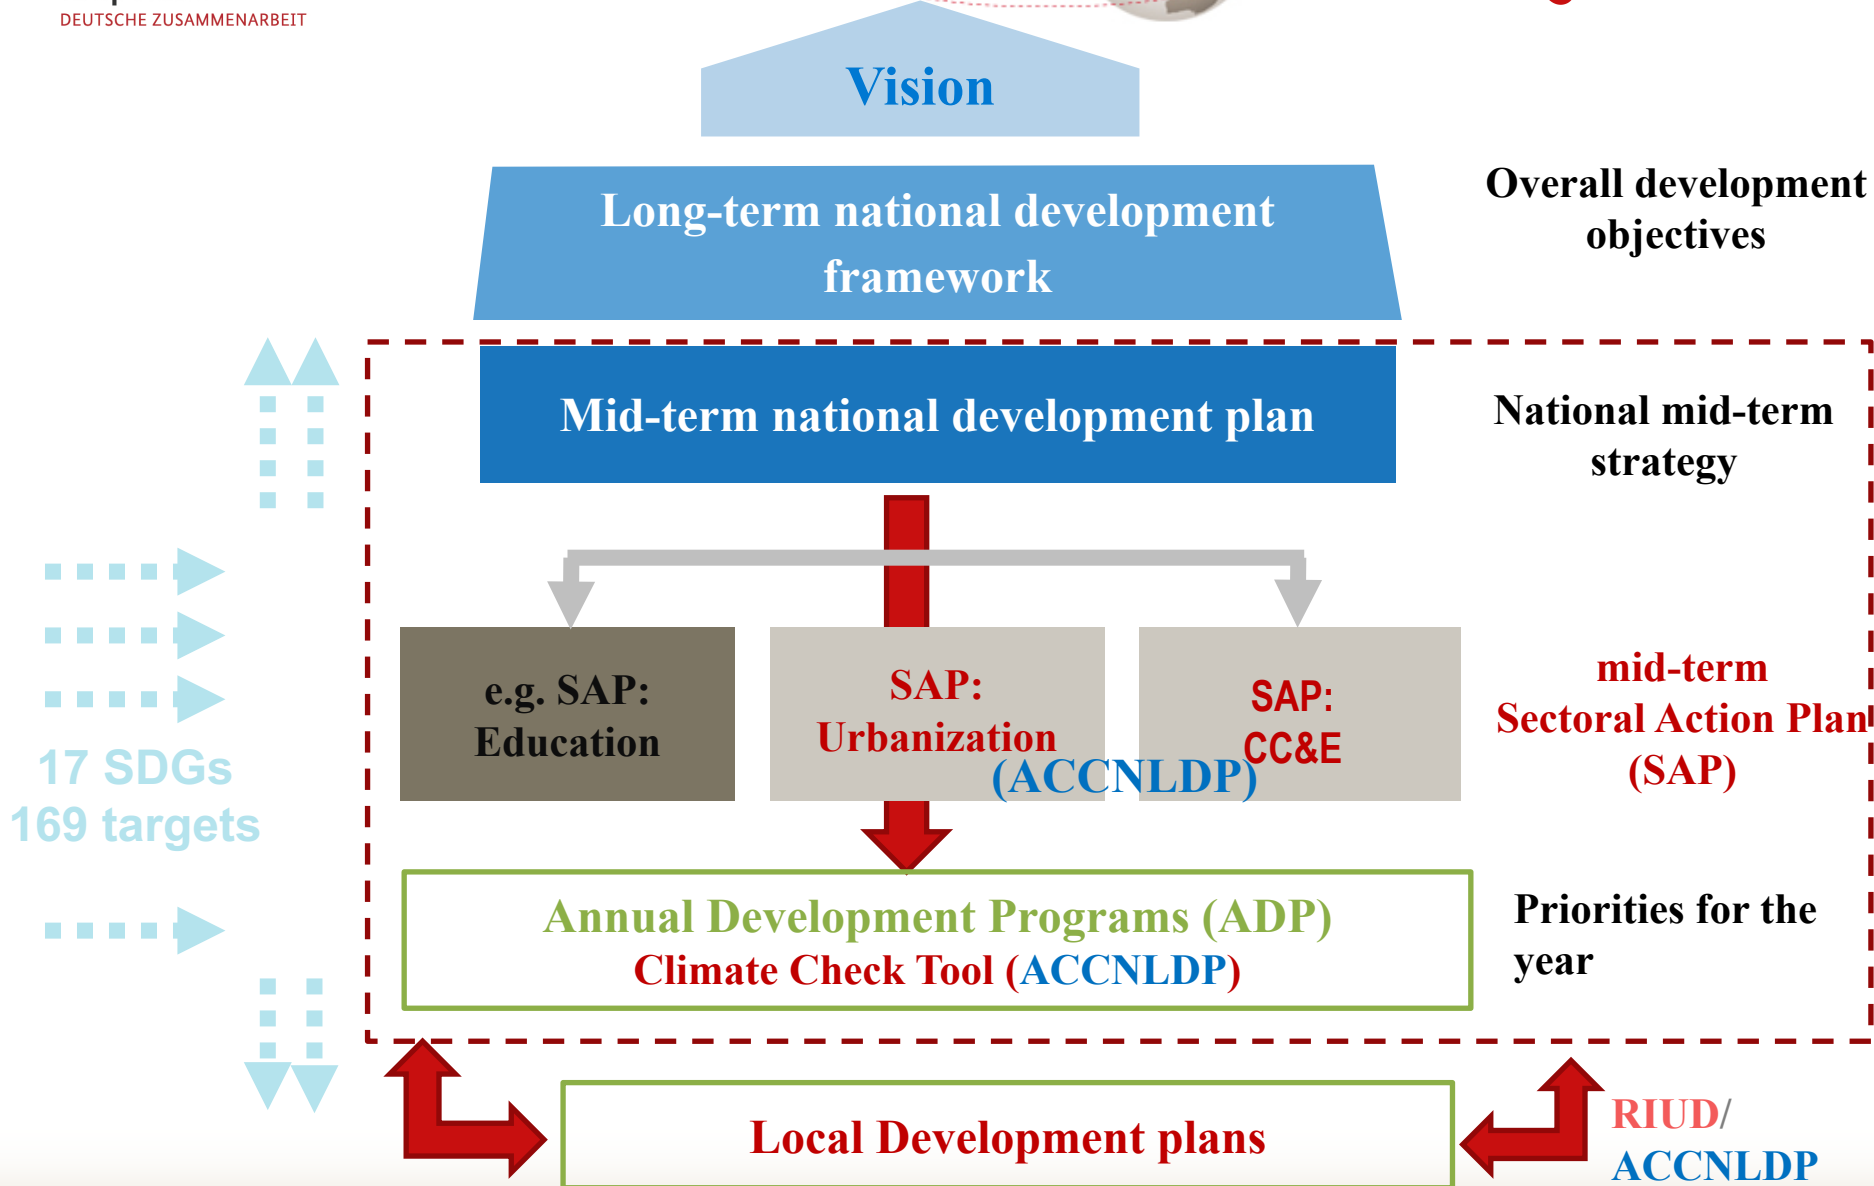

# Local government structure of Bangladesh

## Pourashava Act 2010

- Each Pourashava shall prepare a Master Plan within 5 years of its establishment which among others will include local development programme/plan
- Pourashavas will prepare and implement development plan for a specified period- **UDD and LGED supporting to prepare their plans**
- Each Pourashava prepares and sanctions each FY's budget.

## City Corporation Act 2009

- City Corporations will formulate and implement a development plan for a specific period (Art. 28). They will mobilize resources for the implementation of the plan.
- They can invest a part or full of their revenue for the implementation of their development plan.
- Master plan is available in each city corporation. **Development authorities are supporting to prepare their plans.**

## Is Bangladesh Ready for Integration?

### Focus of 7th Five-Year Plan on Integration of national and local development plan

- Developing planning and budgeting capacities at the local level to help design and implement local level programmes.
- The LGIs will have their annual and **five year plan aligned with the national planning goals and strategies for spending resources** (as of Local Govt. Act & Rules)
- Planning Commission will issue **guidelines for local level plan, extend necessary support to prepare the plan.**
- All national level **socio- economic development projects implemented locally will be integrated with the local plan.**
- **Participation of LGIs** in local components of the national projects **will be ensured** during the formulation of the projects at national level.

## Is Bangladesh Ready for Integration?

### Reality

- There is a **policy gap** of up taking local development plans in national plan making.
- Inadequate **linkages** to the Central level Planning or Budgeting system
- Resources constraints to **implement** the Local Level Plan
- Lack of **understanding** and **capacity** at both National and Local level
- Financial **authority** of LGIs is very low
- Highly **Politicized** regarding development initiatives.
- Spatial **planning** is completely missing
- Piecemeal **efforts** without any integration
- Share of local government institutions to National development **budget** is inadequate.

# Proposal

# Thank You

# Programme

- **Welcome and Moderation:** Ms. Vaishali Nandan, Senior Advisor and Joint Speaker of TUrbOcliC
- **Vertical integration of National Climate Change Policy, experiences from Thailand** – Ms. Chutima Jongpakdee, Project Manager, Support to the Development and Implementation of the Thai Climate Change Policy Project
